Model TC7222 - SD1017

Digitech– Non-contact Digital Thermometer with Laser Sighting

Measuring the temperature of an object that is remote is now quick and easy – just point, pull the trigger, and read the display! This hand held Infrared thermometer quickly takes the surface temperature of any object and, for more remote objects, the built-in laser pointer can be activated to ensure an accurate, on-sight reading from a distance.

Features include a large, green backlit LCD readout, data hold & auto power off, C/F degrees switchable. Applications include automotive, general mechanical, refrigeration, etc.

Price: $205.00
