## Pocket Food Thermometer

### Digital probe thermometer

For the measurement of liquid, pastes and semisolid foods according to HACCP requirements.

This probe can be recalibrated at 0° C

- Prepare an ice bath and check that the temperature of the bath is stable
- Press and hold the °C/°F button for 3 secs
- CAL appears on display
- Wait until 0° C appears on display
- Hold the °C/°F button
- The instrument is now calibrated.

When the instrument is not used it will automatically switch off after approximately 10 minutes.
